We will explore museum and/or the surrounding walks of La Perouse. Housed in a heritage building at La Perouse in Sydney's south, the La Perouse Museum documents the expedition of French explorer the Comte de Lapérouse. Lapérouse arrived in Botany Bay a week after the First Fleet. His expedition was last seen in what is now national parkland before mysteriously vanishing.

The fascinating exhibits in La Perouse Museum also tell stories of the local area, including Aboriginal stories.
